

A newborn baby is the central focus, peacefully sleeping. The baby is wrapped in a thick, white, textured knit blanket that covers their body. On their head, they wear a delicate white headband adorned with several light-colored, fabric roses. The baby is nestled in a white, woven basket with a wooden handle visible at the bottom right. The basket is placed on a white surface with a subtle, repeating pattern of small, raised dots. The overall aesthetic is soft, clean, and minimalist.

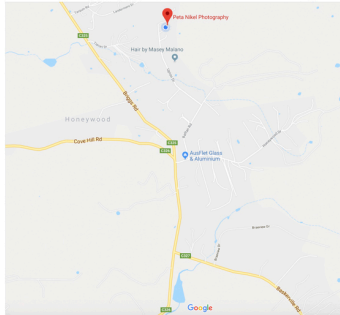

PREPARING FOR YOUR SESSION  
WITH PETA NIKEL PHOTOGRAPHY

HELLO!

---

Congratulations on your new baby! Thank you so much for allowing me the amazing and rewarding job of photographing your new little bub in his/her first few days of life.

My studio is located at:  
68 Upton Drive,  
Honeywood  
0409 007 659

**Directions:**

You will find the suburb of Honeywood between Old Beach and Brighton and on your way to Bonorong, if coming from the city. After turning onto Honeywood Drive, take your first left onto Raffan Rd and then left again onto Upton Drive. You will find me close to the end on the right, a red brick house with the sign “Omaroo” on the fence.

Please park in the car space on the left as you drive up the driveway.

## WHAT TO EXPECT

### For Baby

Before the shoot, it is very important due to time constraints for these petite sessions that you feed baby a full feed before leaving home! This will allow us to maximise the shooting time. Allowing baby some awake time beforehand will also ensure he/she is nice and sleepy when you arrive. Try giving him a bath or letting him have a little kick with just a nappy on.

It will be very warm in the studio. Due to this, I dress for the warm and suggest you do too!

If you are using a dummy or are happy for one to be used just for the session please bring one along as it can really help when I am posing baby. However if you really prefer that we don't use one, that's fine as well!

Please dress baby in clothing that is easy to remove (ie. zip or button down onesies) and try to avoid anything that needs to be lifted over baby's head. This will help me to undress and wrap baby with minimal disturbance.
